

NW 19th Street from SR 7 to SR 845/Powerline Road

Bike Lanes & Rehabilitation

Financial Project ID Number: 431665-1-52-01

Broward County

You're Invited to a Public Information Meeting

The Florida Department of Transportation (FDOT) is holding a public information meeting to present proposed improvements regarding bike lanes and rehabilitation for NW 19th Street from State Road 7 to SR 845/Powerline Road.

Date: Tuesday, March 28, 2017

Time: 5:30 p.m. to 7:30 p.m.

**Place: Mills Pond Park
2201 NW 9th Avenue
Fort Lauderdale, Florida 33311**

The meeting will be an open house with representatives from the FDOT available to answer questions. There will be no formal presentation. Maps, drawings and other information will be available.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who require special accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Bing Wang, P.E., FDOT District Project Manager, at 954-777-4406 at least seven days prior to the meeting.

Project Purpose

The project's primary objective is to provide continuous dedicated bike lanes on both sides of NW 19th Street between State Road 7 (SR7) and Powerline Road. From SR7 to NW 29th Avenue and from NW 24th Avenue to NW 15th Avenue, 4-foot-wide bike lanes will be provided by reducing the width of the traffic lanes; existing 12-foot-wide lanes will be reduced to 10-foot-wide via pavement milling, resurfacing, restriping, and isolated widening. From 29th Avenue to NW 24th Avenue and from NW 15th Avenue to Powerline Road, 5-foot-wide bike lanes with 3-foot-wide buffers will be provided by converting the outside traffic lane to a buffered bike lane through pavement milling, resurfacing, and restriping.

In addition, this project will also retrofit a number of existing curb ramps to meet current Americans with Disabilities Act (ADA) requirements, upgrade bicycle signing and pavement markings and install new pedestrian count down signals at all signalized intersections.

Florida Department of Transportation Mission Statement

The Department will provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity and preserves the quality of our environment and communities.

Project Background

The Broward Metropolitan Planning Organization (MPO) Complete Streets Initiative in partnership with the Florida Department of Transportation (FDOT) identified NW 19th Street as a candidate corridor to enhance the connectivity of bike lanes throughout Broward County; resulting in the creation of this roadway project.

In coordination with multiple stakeholders including the City of Lauderdale Lakes, City of Lauderhill, City of Fort Lauderdale and Broward County, the project's intent is to provide continuous bike lanes along the corridor between State Road 7 and Powerline Road (NW 9 Ave.) Construction is anticipated to begin in August 2018. The total construction cost is approximately \$3.5 million.
